

## ESG Management and Board Accountability

Kosmas Papadopoulos y Rodolfo Araujo (FTI Consulting)

In the world of corporate governance and proxy voting, 2020 has been a remarkable year, not only because annual general meetings took place in the midst of a global pandemic that forced the abrupt transition to a virtual proxy season, but also because this year marked the beginning of the new decade at a time when companies and investors experience a major shift in how they engage on the topic of corporate governance.

### Sustainable Corporate Governance: The Role of the Law

*Alessio Pacces, Amsterdam Law School*

The debate on sustainable finance seldom includes the perspective of shareholders. However, shareholders are important for the governance of publicly held corporations today, because their holdings are concentrated in the hands of few institutional investors.
